# WOOD-TEK

What do you get when you blend the warmth of wood, with the strength of steel? Wood-Tek, shelving and cabinetry.

Wood-Tek's classic good looks grace the hallways and front areas of business, legal and accounting firms, as well as libraries and schools across the country. Wood-Tek is not only beautiful, but strong enough to support the weight of the heaviest of media.

Unique blend of wood with steel shelving

Unsurpassed strength for heavy media

The secret to Wood-Tek's superior strength is its unique design, a rigid four-post steel frame clad in rich wood.

## THE WOOD-TEK ADVANTAGE

Wood-Tek provides unsurpassed beauty and a lifetime of value. Wood-Tek offers many advantages when compared to conventional millwork.

### The Wood-Tek Advantage

- Unlike millwork, Wood-Tek shelves are Aurora Quik-Lok, steel shelving that's guaranteed to stay rigid and level.
- Wood-Tek shelves support greater weight than conventional millwork. One 36" x 12" span of shelving holds in excess of 300 pounds.
- Wood-Tek comes in 5 wood species and 10 elegant stains. When combined with any of the 29 beautiful colors of shelving, Wood-Tek provides infinite design possibilities.
- Wood-Tek product is versatile and 'portable'. If your business moves, Wood-Tek can move with you to preserve your investment.

More colors, more design possibilities
